

OREGON SOCIETY OF
DERMATOLOGY
ASSOCIATES

**6th ANNUAL
CME Conference**
Saturday
October 20, 2018

OHSU School of Nursing, Room 144
3076 SW US Veterans Hospital Road
Portland, OR 97239

This conference serves as a learning opportunity for providers either practicing or interested in dermatology.

Accreditation: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of OHSU School of Medicine and the Oregon Society of Dermatology Associates. The OHSU School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit: OHSU School of Medicine, Division of CPD, designates this live activity for a maximum of 8.0 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Nurse Practitioners and Registered Nurses:

For the purpose of recertification, the American Nurses Credentialing Center accepts AMA PRA Category 1 Credit™ issued by organizations accredited by the ACCME (Accreditation Council for Continuing Medical Education). For the purposes of relicensure the Oregon State Board of Nursing accepts AMA PRA Category 1 Credit™ for attendance at structured learning activities offered by organizations (in this case: OHSU, Division of CPD) accredited by the ACCME. (OAR 851-050-0142).

Physician Assistants: The National Commission on Certification of Physician Assistants (NCCPA) states that AMA PRA Category 1 Credits™ are acceptable for continuing medical education requirements for recertification.

6th ANNUAL CME Conference

Saturday, October 20, 2018

At the conclusion of this conference the participants should be able to:

- Create an appropriate therapy regimen for their patients with severe atopic dermatitis including use of new biologic modalities.
- Understand the histological features of atypical melanocytic lesions and have an awareness of emerging diagnostic therapies for distinguishing these lesions from melanoma.
- Develop a treatment plan for patients with new and long standing vitiligo utilizing a variety of treatment modalities in combination.
- Have a better understanding of pediatric dermatology emergencies and challenging cases.
- Prepare their practice for the significant legislative changes impacting how medicine is practiced moving into the future.
- Understand how the skin's microbiome is influential in different disease states and how this can impact a patient's treatment.
- Integrate different treatment strategies for common and rarely seen skin conditions.
- Better understand the naturopathic approach to many common skin conditions.
